

ABSOLUTE SPILL SOLUTIONS

A person wearing a white protective suit and boots is working in a hazardous spill site. The person is standing on a dark, wet surface, possibly asphalt, and is holding a large black plastic bag. In the background, there are various pieces of equipment, including a large metal drum and a hose. The overall scene is dimly lit, suggesting an industrial or emergency response environment.

OUR VISION

OILEX becomes the synonym for an effective and efficient absorbent for oils, fuels and chemicals.

OUR MISSION

We offer an organic premium solution that allows one to effectively fight spills with oils, fossil fuels and a wide range of chemicals - wherever they may occur. We strive to comprehensively understand our customers' needs and to build long-lasting partnerships. Thereby we help to save costs while at the same time acting responsibly towards the environment.

ABSOLUTE SPILL SOLUTIONS

OILEX is an organic binder which is able to absorb all kinds of oil, fuels, chemicals, blood, etc. very quickly and effectively.

OILEX is universally applicable on water, asphalt or on the ground and is used to combat im-purities and environmental catastrophes.

The natural fiber is not toxic, it has no negative effect on the environment.

WHATEVER YOU SPILL

ABSOLUTE ORGANIC

OILEX is a hydrophobic biogenic sediment -
100% natural fibre without any additives.

- OILEX is anti-toxic for humans and nature
- OILEX is completely biodegradable
- OILEX guarantees no lasting contamination of soil or [ground-] water

Certified by the German Institute for
Environmental Hygiene and Toxicology
[Hygiene-Institut des Ruhrgebiets] in
Gelsenkirchen, Germany

ABSOLUTE EFFICIENCY

- Universally applicable
- Potent on all surfaces
- Immediately effective

Certified in terms of its effectiveness: Material
Testing [Materialprüfungsamt Nordrhein-
Westfalen] in Dortmund, Germany

OILS

100% ABSORPTION

Crude oil, heavy fuel oil, marine fuel oil, engine oil, heating oil, hydraulic oil, oil-based lubricants, liquid paraffin, petroleum, kitchen oil and animal oil

FUELS

100% ABSORPTION

Benzine, petrol, diesel, aviation fuels

CHEMICALS

100% ABSORPTION

Alcoholic substances, hydrophobic solvents, polychlorinated biphenyls (PCBs), styrenes, turpentine and a wide range of other chemicals

OTHERS

100% ABSORPTION

Oil-based colors and paints, brake fluids, oil-based coolants,
as well as blood

WHEREVER YOU SPILL

PERFORMANCE

- OILEX has a degree of absorption of up to 100%
- OILEX can hold up to a 3-fold of its own weight
- OILEX can be reused several times until it is completely saturated
- With only 134 g/liter, OILEX is extremely lightweight, economical and easy to handle
- OILEX encloses absorbed substances even under pressure
- OILEX is buoyant and hydrophobic

For applications on wet surfaces the performance of OILEX is even higher.

FIELDS OF OPERATION

The Federal Ministry for the Environment, Nature Conservation and Nuclear Safety divides all sorbents according to their areas of application into the following classes:

Type I: Special suitability for use on water

Type II: For general use on land and smaller bodies of water

Type III: For special needs cases, especially commercial and industrial applications

Type R: For oil absorbents that demonstrate sufficient grip on surfaces after treatment [especially when wet]

WATER

OILEX is light and buoyant. Therefore, it works well on calm but also turbulent bodies of water. Spilled substances are absorbed immediately and completely. Even saturated OILEX does not sink down to bottom and can easily be suctioned off.

Type I

LAND

OILEX is 100% organic and absolutely non-toxic. In case of contaminated soils, OILEX can be spread out and mixed in; it thereby absorbs the spilled substance and can make a contribution to the re-cultivation of the soil.

Type II

ROADS

OILEX absorbs leakages within seconds on industrial surfaces and asphalt. It does not get stuck in the pores of the road surface. This guarantees that up to 96% of the original road surface grip are quickly restored – ideal for all traffic areas.

Type III R

The background of the entire page is a dark blue field filled with out-of-focus, bokeh-style light spots in various shades of blue, cyan, and white, resembling city lights at night.

OILEX

OILEX 24-HOUR EMERGENCY PROGRAM

Oilex International offers a 24-hour emergency program in the event of a disaster. This guarantees the supply of large quantities of the absorbent within a very short time.

ALWAYS ON DUTY. IMMEDIATELY AVAILABLE.
